

BRIEF SUMMARY

Worked as a Full Stack Web Developer responsible for designing, developing, and maintaining end-to-end web applications. Developed responsive and user-friendly front-end interfaces using modern web technologies and implemented robust back-end logic, APIs, and database integrations. Collaborated with cross-functional teams to ensure application performance, security, and scalability, while actively participating in debugging, testing, and deployment processes.

KEY EXPERTISE

Frontend development using React.js, HTML5, CSS3, JavaScript Backend development with Node.js / Express.js
Authentication & authorization Database management (MySQL / PostgreSQL / MongoDB)

EDUCATION

Parul University B.Tech. - CSE - PIT CGPA: 6.96 / 10	2022 - 2026
KENDRIYA VIDHAYALAYA PORBANDAR, Porbandar 12 th CBSE Percentage: 60 / 100	2022
KENDRIYA VIDYALAYA PORBANDAR, Porbandar 10 th CBSE Percentage: 70 / 100	2020

AWARDS AND SCHOLARSHIPS

- Digital Gujrat Scholarship

INTERNSHIPS

FLYANYTRIP Technology Software Intern Key Skills: Communication Skills React.js MongoDB SQL Python Communication skills Teamwork & collaboration Time management Problem-solving	10 Jan, 2026 - 22 Apr, 2026
Worked as a Full Stack Web Developer at FlyAnyTrip, involved in designing, developing, and maintaining dynamic web applications. Responsible for building responsive user interfaces using modern front-end technologies and developing secure, scalable back-end services. Collaborated with the development team to integrate APIs, manage databases, implement authentication, and optimize application performance. Actively participated in debugging, testing, and deploying web solutions to ensure a smooth and user-friendly experience.	

PROJECTS

Password_Generator Mentor: No Team Size: 1 Key Skills: HTML CSS Python Flask Project Link: https://password-generator-black-nu.vercel.app/ Developed a customizable password generator with user-controlled parameters for password length and character composition. Users can choose to include uppercase letters, lowercase letters, numbers, and special characters, enabling the generation of secure and complex passwords tailored to individual needs	22 May, 2025 - 23 May, 2025
WheatherForecast Mentor: No Team Size: 1 Key Skills: HTML CSS Javascript Project Link: https://walterhydra.github.io/Wheather-forecast/	06 May, 2025 - 12 May, 2025

Developed a responsive weather application utilizing HTML, CSS, and JavaScript, integrated with a third-party Weather API. The application enables users to search for real-time weather data by location, presenting information such as temperature, weather conditions, humidity, and wind speed. Emphasized a clean, user-friendly UI with full cross-device compatibility to ensure a seamless user experience.

Bus_Managment

14 Apr, 2025 - 21 Apr, 2025

Mentor: Dr.Bijal jigar talati

Team Size: 4

Key Skills:

HTML

CSS

Javascript

Node.js

TypeScript

React.js

Project Link:

https://walterhydra.github.io/Bus_Managment/

Led the design and development of a Bus Management System to streamline route scheduling, seat reservations, and real-time tracking. Collaborated with a team to create a user-friendly interface and implemented database integration using MySQL. Demonstrated effective planning, task delegation, and quality assurance throughout the project lifecycle.

ACHIEVEMENTS

- I solved 200+ Coding Problem on the Coding Platform named Leetcode. I achieved many Badges on Leetcode which are proof of my expertise in Problem Solving
- o Designed and developed scalable full-stack web applications that improved user experience and performance
- o Developed and integrated RESTful APIs and optimized database queries to improve application efficiency.
- o Reduced API response time by 40% by implementing efficient backend logic and indexing.

ASSESSMENTS / CERTIFICATIONS

Python Certificate

06 Sep, 2028

Aggregate: 7.23 / 10

Subjects: Python (7.23 / 10)

Key Skills:

Python

Completed a certified course covering the fundamentals of Python programming, including data types, control structures, functions, file handling, and object-oriented programming. Gained practical experience by working on small-scale projects and coding exercises involving data analysis, automation, and basic algorithm design.

NPTEL - Computer Networks And Internet Protocol

Aggregate: 60 / 100

Subjects: NPTEL - Computer Networks And Internet Protocol (60 / 100)

Key Skills:

Computer Skills

Computer Networking

Successfully completed the NPTEL online certification course on Computer Networks, covering key concepts such as OSI and TCP/IP models, routing algorithms, error detection and correction, network security, and congestion control. Gained a strong theoretical foundation along with problem-solving skills through weekly assignments and a proctored final exam.

I.I.M.U.N Vadodara Conclave

Subjects: I.I.M.U.N (90 / 100)

Key Skills:

Public speaking and diplomacy,

Critical thinking and negotiation

Teamwork and global awareness

I'm honored to have received a certificate from India's International Movement to Unite Nations (IIMUN).
Participating in IIMUN was an enriching experience where I had the chance to engage in thoughtful discussions, develop my communication and leadership skills, and connect with like-minded individuals from across the country.

SQL (Advanced)

Subjects: SQL advanced (9.20 / 10)

Key Skills:

Complex SQL queries and joins

Database design & normalization

Advanced SQL queries (JOINS, subqueries, CTEs)

This certification validates advanced knowledge of SQL, including writing complex queries using joins, subqueries, and common table expressions (CTEs). It covers database design principles, normalization, indexing, and query optimization techniques. The course also involved working with stored procedures, functions, triggers, and transaction management to ensure data integrity and efficient database performance.

Spotify Clone using react

Subjects: React Development (8.20 / 10)

Key Skills:

React.js (functional components & hooks)

JavaScript (ES6+)

HTML5 & CSS3

Git & version control

REST API integration

Developed a Spotify clone using React.js that replicates core music streaming features such as user interface design, playlist browsing, and music playback functionality. Implemented a responsive, component-based frontend using modern JavaScript and React hooks. Integrated APIs to fetch and display music-related data, managed application state efficiently, and focused on creating a smooth, user-friendly experience similar to a real-world music streaming platform.

SEMINARS / TRAININGS / WORKSHOPS

Tableau Institute Name: Parul Institute of Engineering and Technology 21 Dec, 2024 - 28 Dec, 2025

Key Skills: Data Collection Visualization Design Thinking collaboration

Attended a comprehensive seminar on Tableau focused on data visualization best practices, dashboard creation, and real-time business intelligence applications. Gained hands-on experience in connecting datasets, building interactive dashboards, and generating insights through charts, filters, and calculated fields. Emphasis was placed on applying Tableau for decision-making in domains such as transportation, sales, and customer analytics.

I.I.M.U.N Vadodara Conclave

Institute Name: Parul Institute of Engineering and Technology

Key Skills: citizenship leadership collabration knowledge

Engaged in the I.I.M.U.N. Vadodara Conclave, a prestigious youth-oriented event hosted by Parul University, which brought together over 25,000 participants and eminent personalities from diverse fields .This experience enhanced skills in public speaking, critical thinking, and collaborative problem-solving, contributing to personal growth and a deeper understanding of global citizenship

PERSONAL INTERESTS / HOBBIES

- 1) Competitive programming on platforms like LeetCode and Codeforces
- 2) Designing websites or mobile apps
- 3) Exploring open-source projects and contributing to GitHub
